

Operating instructions

# SAFETY DATA SHEET PLATFORM

---

Dear Sir or Madam,  
These instructions will guide you through the optimal use of our safety data sheet platform.

**Your goal:** To quickly and efficiently find and download the safety data sheets you need.

**What you can expect:**

- Step-by-step instructions
- Practical tips for optimal use
- Technical information

1

## Select list view

**Important note:** We strongly recommend that you use the list view!

**Advantages of the list view:**

- All safety data sheets are clearly listed
- Quick orientation thanks to clear structuring
- Efficient search for specific products
- Direct access to desired documents

**How to find the list view:**

1. At the top right you will find the view options (next to "Sort by")
2. Click on the list icon (three horizontal lines)
3. Avoid the tile/grid view for a better overview

**Tip:** In the list view, you can see all the important information at a glance: Product material number, product name, language, country, division and document type

2

## Efficient navigation

**Search strategies**

**Recommended: Search by material number**  
The most precise search method for fast results

**This is how the material number search works:**

1. Enter the material number in the search field (e.g. "55-645-294")
2. Wait until the drop-down menu opens
3. Click on the top search result - this is the most accurate result
4. You will be taken directly to the corresponding safety data sheets

Further search options:

- Use the alphabetical sorting for an overview
- Search by product name or partial terms
- Use filter options for even finer results
- Combine search with language and country filters

**Tip:** Use partial terms in the search if you are not sure of the exact name of the product.

3

## Download safety data sheets

**Various download options:** You have several options for downloading safety data sheets.

**Option 1:** Via the burger menu (list view)

1. Click on the three dots ( ) to the left of the desired safety data sheet
2. The burger menu opens with various options
3. Direct download: Select "Open" for immediate access
4. For multiple sheets: Select "Add to Cart" to collect multiple safety data sheets

**Option 2:** Via the document icon

1. Click directly on the document icon ( ) of the desired safety data sheet
2. The safety data sheet opens with additional details and information
3. Click on the download icon at the top right to download
4. The document is downloaded or opened directly

**Tip for multiple downloads:** Use the cart function to collect several safety data sheets and then download them all at once. This saves time for larger requests.

After the download:

- Save the document in a safe, accessible location
- Check the date for the latest version
- Make sure that the PDF can be opened correctly

**Important:** Always check the date of the safety data sheet to ensure you are using the latest version.

# Support & Technical Notes

## System requirements:

- All common browsers are supported
- PDF reader required to open the documents
- Stable internet connection recommended

**Automatic updates:** Regular updates of the safety data sheets are entered automatically.

**Do you need help?** If you have any technical problems or questions about specific safety data sheets, please do not hesitate to contact us.

**Thank you for using our platform!**
